

Sunpac®

PET CLAMSHELL PUNNET
FOR SOFT FRUIT **500 gms**

DESCRIPTION

Clear rigid thermoformed PET punnet with **hinged lid**. The punnet is manufactured from the best quality food grade PET raw material, and has the highest level of clarity and gloss. The punnet has a two button closure system that has been designed for positive and easy closing and at the same time secure locking under dynamic transport conditions. The venting system has 12 slots in the lid and **additional 12 slots in the base** with a high open area, giving the most effective air inflow through the punnet, even when the punnets are stacked on each other or placed in an inverted position. The design provides for efficient cooling of the contents during the pre-cooling stage and during subsequent refrigeration in storage and transportation.

APPLICATION

For 500 gms packing of grapes, cherries, strawberries and other soft fruit, which can be transported and stored through the cold chain at temp of minus 20° C and finally displayed directly on the retailer's refrigerated shelf.
